

Dear AcadeMir Families,

Welcome to AcadeMir Charter School Middle! Summer is a great time to relax, but it is also time to read and practice your skills in order to be prepared for the upcoming school year. We have prepared a standards-based summer packet with Language Arts, Math, and Science activities to support summer learning and increase critical thinking. Summer packets are **MANDATORY**, due on **September 5, 2017**, and will be graded. A test will be administered on the reading assignment.

If you have any questions, please contact Mrs. Escobar (305) 967-8492 or via email ddescobar@dadeschools.net.

May you have a restful, relaxing, enjoyable and fun-filled summer!

Sincerely,

Mrs. K. Rodriguez, Ed., S.
Principal

Dear Parents,

Students will be required to take the Geometry End of Course Exam next year and this singular score will be the determining factor for high school accreditation in Geometry. This new Florida Standards Assessment was created for the purpose of increasing student achievement, improving college and career readiness; but, most importantly it was created to provide students the opportunity to be at the same level with the rest of the students throughout the United States that are part of the Common Core and make them competitive world-wide.

Students are expected to go to the Escambia School District Website (<https://ecsd-fl.schoolloop.com/EOCReviews>), click on the assigned tested benchmark, list What You Need To Know, and write the detailed example for each assigned tested benchmark including drawings using the Tools of Geometry and watch the forthcoming new MAFS videos.

Finally, the objective is to familiarize students with 46% of the FSA Geometry EOC from the very beginning of the school year.

Month/Week	Concept
June 12 – 16	CO.1.1 Definitions
June 29 – 23	CO.1.2 Use Transformations CO.1.5 Map Transformations
June 26 – June 30	CO.2.6 Rigid Motions
July 3 – 7	CO.2.3 Line and L Theorems
July 10 – 14	CO.3.10 Triangle Theorem SRT.2.5 ~ and \cong Criteria of triangles
July 17 – 21	CO.3.11 Parallelograms
July 24 – 28	CO.4.12 Constructions
July 31 – August 4	SRT.1.1 Dilations
August 7 – 11	SRT.1.2 Definition of Similarity
August 14 – 18	SRT.3.8 Trigonometry and Pythagorean Theorem
